Nail it.

We've got it!

## Zimmer® Natural Nail™ System

### The New Nailing Portfolio from Zimmer

#### Cephalomedullary Nail\*

- Anatomically shaped nails both for the short and long nails to better fit the medullary canal
- Long nails feature versatile distal hole options with *Zimmer® Stabilize Technology*
- Fixed angle screws help improve fixation, especially in osteoporotic bone
- Soft tissue friendly instrumentation
- Color coding to make use of the system intuitive

The *Zimmer Natural Nail System* is a system of intramedullary nails, screws, instruments and other associated implants that are designed to provide stable internal fixation for fractured long bones. The nails have been designed for specific applications to help restore the shape of the fractured bone to its natural, pre-injured state.

\* The *Zimmer Natural Nail System* also includes Nails for Antegrade and Retrograde Femur, Tibia, Antegrade and Retrograde Humerus.
